Singing Our Way To God

Robert Mann

Director of the Music Resource Library, Church Music Institute, Dallas and Professor Emeritus of Music at Stephen F. Austin State University

Saints through the ages have expressed the theology of the Church in the writing and singing of Christian hymns. The music of hymns can be as varied as psalms sung in chant style, gospel songs, and unison hymns with majestic organ accompaniments. This brief study will explore hymns of the Church from the Middle Ages to the present, how they have been used, and the historical and theological contexts from which they arose. What gives these hymns their enduring quality?

Robert C. Mann taught courses in organ, musicology, and church music at Stephen F. Austin State University. He has served churches for over forty years as organist or organist-choirmaster and actively participated as recitalist in solo organ repertoire, organ duets, and music for two organs. He has been workshop clinician for church worship groups at the state, regional, and national levels.
